We have performed the Single Audit of the Brandywine Heights Area School District for the fiscal year ended June 30, 2010, and have enclosed the Single Audit reporting package.

The Single Audit was done to fulfill the requirements of OMB Circular A-133, which entailed:

1. An audit of the basic financial statements, and our opinion thereon;
2. A review of compliance and on internal control over financial reporting based on an audit of the financial statements performed in accordance with Governmental Auditing Standards, and our report thereon;
3. An examination of the Schedule of Expenditures of Federal Awards, and our report thereon; and,
4. An opinion on compliance with requirements applicable to each major program and a review of internal control over compliance in accordance with OMB Circular A-133, and our report thereon.

As part of our report, we have enclosed our management letter.

Respectfully submitted,

Gorman & Associates, P.C.

CERTIFIED PUBLIC ACCOUNTANTS

Members of
American Institute of Certified Public Accountants
Pennsylvania Institute of Certified Public Accountants
Florida Institute of Certified Public Accountants

Board of School Directors
Dr. Martin D. Handler, Superintendent
Brandywine Heights Area School District
200 West Weis Street
Topton, PA 19562

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Brandywine Heights Area School District for the year ended June 30, 2010, and have issued our report thereon dated December 17, 2010.

As stated in our engagement letter, our responsibility, as described by professional standards, is to express opinions about whether your financial statements are fairly presented, in all material respects, in conformity with the U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities, including having compensating controls in place to ensure our preparation of your financial statements and note disclosures are not materially misstated.

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matter on June 8, 2010.

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Brandywine Heights Area School District are described in the notes to the financial statements. No new accounting policies were adopted during this past year and the existing policies were properly applied. We did not discover any transactions entered into by the District that lacked authoritative guidance or consensus. In addition, there are no significant transactions affecting the financial statements that have been recognized incorrectly in the wrong year.

Accounting estimates, which are part of the significant accounting policies, are an integral part of the financial statements and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events may differ significantly from those expected. The most sensitive estimates affecting the financial statements was depreciation taken on capital assets based upon the estimated useful life of each asset and calculated on the straight-line basis of depreciation, and the Actuary's report on Other Post Employment Benefits. We have evaluated the factors and assumptions used to develop these estimates and have determined the estimates to be reasonable in relation to the financial statements taken as a whole.

We wish to inform you that the disclosures in your financial statements are neutral, consistent, and clear. From time to time, certain disclosures are more sensitive than others due to their significance to financial statement users. The most sensitive disclosures involve capital assets and long-term debt.

We have requested certain representations from management that are included in the management representation letter provided to us on December 17, 2010. We advise the governing body to request this letter from management for their review. In conjunction with their representations, we wish to inform you we did not encounter any significant difficulties in dealing with management and had no disagreements with your management. To our knowledge, management did not find a need to converse with any other independent accountant on any related accounting or auditing issue.

In addition, the representation letter provided to us, by management, confirmed there were no uncorrected misstatements. Management has recorded all of our adjusting journal entries, and has agreed to the conversion entries necessary to convert governmental funds and proprietary funds to governmental activities and business-type activities, respectively.

In accordance with auditing standards, generally accepted in the United States of America, we have acquired a sufficient understanding of the District and its environment, including its internal control, to assess the risk of material misstatements of the financial statements whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures that were necessary to express an opinion on the 2009-10 basic financial statements.

Our consideration of the District's internal control components was not designed for the purpose of making detailed recommendations and would not necessarily disclose all significant deficiencies within the components. Our audit procedures have been appropriately adjusted to compensate for any observed significant deficiencies. The following three paragraphs define the three different types of deficiencies that can occur:

A control deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis.

As the primary purpose of our audit is to form an opinion on the basic financial statements, you will appreciate that reliance must be placed on adequate methods of internal control as your principal safeguard against errors and fraud which audit procedures may not disclose. The objective of internal control over financial reporting is to provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use and that financial records are reliable for preparing financial statements in accordance with generally accepted accounting principles and for maintaining the accountability for assets. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the related benefits; to operationalize this concept, management is required to formulate estimates and judgments of the cost/benefit ratios of alternative controls.

There are inherent limitations that should be recognized in considering the potential effectiveness of internal control over financial reporting. Errors can result from misunderstanding of instructions, mistakes of judgment, carelessness, fatigue, and other personnel factors. Control procedures whose effectiveness depends upon the segregation of duties can be circumvented by collusion or by management. What's more, any projection of internal control evaluations to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions or due to the deterioration of the degree of compliance with control procedures.

As an adjunct to our audit, we remained alert throughout for opportunities to enhance internal controls and operating efficiency. These matters were discussed with management as the audit progressed and have subsequently been reviewed in detail to formulate practical recommendations. We wish to thank your staff for their courtesies and cooperation, which facilitated the efficient performance of audit procedures. The remainder of this letter will explain any internal control deficiencies discovered during the audit, other auditor recommendations, and other information pertinent to the District.

A control deficiency is determined to be considered a material weakness or significant deficiency based upon the magnitude of the problem as it pertains to a particular opinion unit. In other words, what is considered a significant deficiency in one fund may only be a control deficiency in another fund of greater size.

The following section in this governance/management letter is separated by categories based on importance, with any material weaknesses or significant deficiencies listed in the beginning:

RECOMMENDATIONS

Athletic Fund – Game Receipts

Although the District has improved their controls associated with athletic events in past years, we are recommending an additional procedure to enhance the game sheets. Presently, the athletic director puts the beginning and ending ticket stubs from the roll, before and after each event on the game sheet. By doing this, the difference between the beginning ticket number and the ending ticket number is supposed to reflect the number of tickets sold.

We are recommending the actual tickets sold and counted at each event should be maintained by the athletic office and put into a lunch bag for each event. The bag should be marked on the outside with the date and name of the event, along with the number of tickets sold that are stored inside the bag.

The reason for this recommendation is for us to verify during the audit process that the rest of the controls do actually exist and operate correctly on an ongoing basis. Without seeing the actual tickets sold, there is no guarantee that the amount deposited is accurate.

OTHER INFORMATION

Reclassification of Funds

As a result of implementing GASB Statement No. 54 on fund balance reporting, certain special revenue funds will be reclassified starting with the 2010-11 fiscal year. The Capital Reserve Fund will be reclassified as a Capital Project Fund. Keep in mind, there are legal limitations on what items can be expended from this fund regardless of the type of governmental fund it is classified. You have a choice pertaining to the Athletic Fund. For external financial reporting purposes, the Athletic Fund must be eliminated and be reported as part of the General Fund.

However, for internal purposes you may choose to keep this fund active. In this case, we will consolidate the Athletic Fund with the General Fund in preparation of your external financial statements.

If you choose the latter option, be careful in preparing your General Fund budget to include athletic appropriations in function 3250 and a corresponding estimated revenue account for game revenue. Any portion the general fund contributes to the Athletic Fund, should be coded and budgeted to function 3250.

New Federal Reporting Requirements

Starting in the 2012 calendar, optional for the 2011 calendar year, the employer's share of health insurance premiums paid on behalf of each employee will be required to go on each employee's W-2 that is filed with the IRS. In addition, beginning January 1, 2011, non-prescription over-the-counter health aids will no longer be allowed to be paid or reimbursed through a Flexible Spending Arrangement (FSA) Plan.

In addition, starting in the 2012 calendar year, year end reporting requirements pertaining to Form 1099s will be expanded to include: all payments made in excess of \$600, per year, to any vendor (individual, partnership, corporation, LLC or LLP) for services rendered or goods purchased will require the filing of Form 1099 with all pertinent information including taxpayer identification numbers.

These federal reporting requirements are always subject to future changes by the U.S. Congress.

This letter is required by our standards and has been combined with, what we previously referred to as, the management letter. The intent of this letter is to communicate with those charged with governance on matters pertaining to the audit and includes information that we believe can help you correct or improve operating efficiency, under the limitations of staff availability, within the District.

Respectively submitted,

Gorman & Associates, P.C.

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Brandywine Heights Area School District as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards, generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made, by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Brandywine Heights Area School District as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof, and the budgetary comparison of the general fund for the year then ended in conformity with accounting principles, generally accepted in the United States of America.

In accordance with Government Auditing Standards we have also issued our report dated December 17, 2010, on our consideration of the Brandywine Heights Area School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis, on pages 9 - 20, and the Schedule of Funding Progress on page 63, are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Brandywine Heights Area School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and the combining and individual fund financial statements and schedules, listed in the table of contents, are presented for the purpose of additional analysis and are not a required part of the financial statements of the Brandywine Heights Area School District. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Respectfully submitted

Spencer Associates, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
Required Supplementary Information (RSI)
(UNAUDITED)
For the Fiscal Year Ended June 30, 2010

The discussion and analysis of Brandywine Heights Area School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and the financial statements to enhance their understanding of the District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999.

FINANCIAL HIGHLIGHTS

The District's overall financial position, as represented by total net assets of \$16,456,299, reflected an 12.58% increase over the prior year. The increase was due to the scheduled \$2,135,000 reduction in bonds payable offset by other changes in net assets.

The real estate tax increased 3.2% over the previous year which was 1.9% less than the published 5.1% Act 1 Index for Brandywine Heights Area School District.

In governmental funds, the total fund balance increased \$679,175 to \$5,205,282. The General Fund budgeted a \$232,010 decrease in fund balance for the fiscal year. The \$911,185 variance between budget and actual resulted primarily from an unanticipated increases in the beginning fund balance and the nonuse of the budget reserve appropriation. Actual total revenues were 99.2% of original budgeted revenues and actual total expenditures excluding budgetary reserve were 97.9% of original budgeted expenditures.

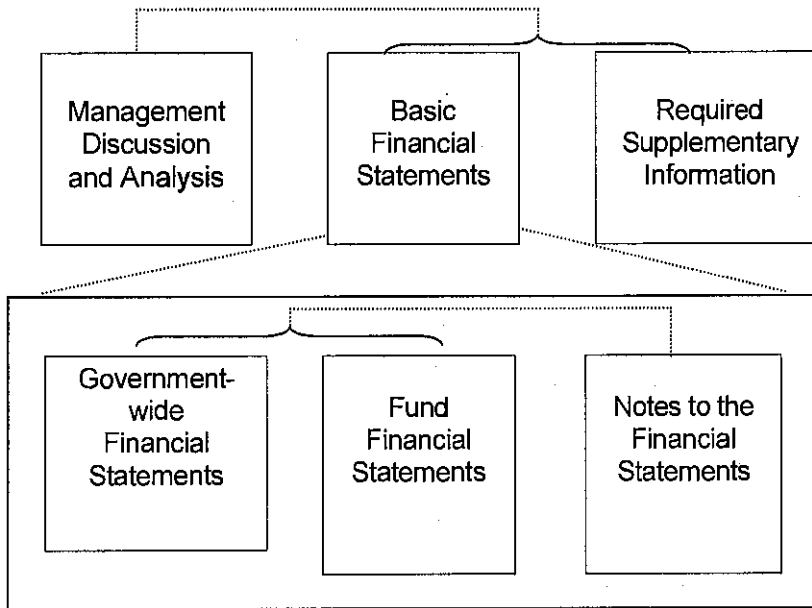

The remaining statements are fund financial statements that focus on individual parts of the District's operations in more detail than the government-wide statements. The governmental funds statements tell how general District services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short-term and long-term financial information about the activities that the District operates like a business. For this District this is our Food Service Fund. Fiduciary fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Management's Discussion and Analysis

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net assets and how they have changed. Net assets, the difference between the District's assets and liabilities, are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, you need to consider additional non-financial factors, such as changes in the District's property tax base and the performance of the students.

The government-wide financial statements of the District are divided into two categories:

- **Governmental activities** – All of the District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- **Business type activities** –The District operates a food service operation and charges fees to students and staff to help it cover the costs of the food service operation.

Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required by state law and by bond requirements.

Governmental funds – Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary funds – These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides – whether to outside customers or to other units in the District – these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Management's Discussion and Analysis

Fiduciary funds - The District is the trustee, or fiduciary, for some scholarship funds and student clubs and organizations. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's total net assets were \$16,456,299 at June 30, 2010.

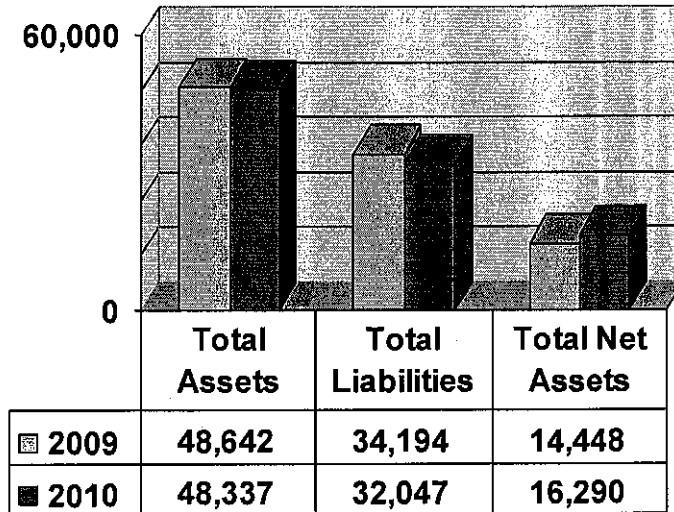

Table A-1
Net Assets
As of June 30, 2010 and June 30, 2009

	2010			2009		
	Governmental Activities	Business-type Activities	Total	Governmental Activities	Business-type Activities	Total
Current and other assets	\$ 8,475,472	\$ 96,764	\$ 8,567,431	\$ 7,945,926	\$ 144,316	\$ 7,998,176

BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Management's Discussion and Analysis

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the local taxes assessed to community taxpayers and the Basic Education Subsidy provided by the State of Pennsylvania.

Table A-2 takes the information from that Statement, rearranges it slightly, so you can see our total revenues for the year.

Table A-2
Changes in Net Assets
Fiscal Years ended June 30, 2010 and June 30, 2009

	<u>2010</u>			<u>2009</u>

BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Management's Discussion and Analysis

The tables below present the expenses of both the Governmental Activities and the Business-type Activities of the District.

Table A-3 shows the District's largest functions as well as each function's net cost, total cost less revenues generated by the activities. This table also shows the net costs offset by the other unrestricted grants, subsidies and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues.

The Statement of Revenues, Expenses and Changes in Fund Net Assets for this proprietary fund will further detail the actual results of operations.

THE DISTRICT FUNDS

At June 30, 2010, the District governmental funds reported a combined fund balance of \$5,205,282, which is a increase of \$679,175. The major changes are:

General Fund:

The General Fund balance increased by \$679,175 to \$5,205,282. This is \$1,524,553 over the original budget's ending fund balance. The actual expenditures were \$620,255 or 2.2% under budget, the revenues were \$234,554 or .8% under budget and the beginning fund balance was \$613,368 or 15.7% over budget.

The expenditure variance represents the unused appropriations for general use budgetary reserve \$502,000, interest on variable rate debt \$194,000, salaries/benefits \$395,000 plus variances within the other accounts.

Local tax revenue provides approximately 64% of the District's total revenues. These revenues are difficult to budget for because changing economic conditions directly impact both the basis and current collection rates. These revenues include real estate, interim real estate, delinquent real estate, earned income, real estate transfer, per capita, delinquent per capita, and occupation privilege taxes.

The beginning fund balance variance resulted from the overestimation of rates on variable rate debt, overestimation of fuel prices, and overestimation of salary/benefit expenses in the prior year.

Business Type Activity:

The food service program reduced loss of \$42,847 at June 30, 2010, before a \$40,000 transfer from the General Fund. Lunch price increases, staffing reductions and implementation of a breakfast program helped to reduce the food service program loss for 2009-10.

BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Management's Discussion and Analysis

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2010, the District had \$39,744,699 invested in a broad range of capital assets, including land, buildings, furniture, equipment, and vehicles. This amount represents a net decrease (including additions, deletions and depreciation) of \$826,769, or 2.04% from last year.

Table A-4

Other obligations include accrued vacation pay and sick leave for specific employees of the District. More detailed information about our long-term liabilities is included in the notes to the financial statements.

BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Management Discussion and Analysis

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's general obligation bond rating dated October 2006 is a Moody's A1 enhanced and A3 underlying rating. The A1 enhanced rating is based upon the additional security for bonds provided by the Commonwealth of Pennsylvania Act 150 School District Intercept Program. The Act provides for undistributed state aid to be diverted to bond holders in the event of default. Moody's cited that the A3 underlying rating reflects "the District's healthy reserve levels, modestly growing tax base and well above average debt burden".

The revenue budget for the 2010-2011 year is 92,989 more than the original budget for 2009-2010. This represents 0.3% increase in budgeted revenues. The District's real estate tax rate increase of 1.0% was levied to establish funding of .3mills (\$166,500) for future Debt Service for Bond Issue in 2011.

The 2010-11 budget also includes \$192,000 in carry-over from 2009-10 federal economic stimulus one time funding for IDEA (\$155,000) and Title 1 Program Improvement (\$37,000). These funds by law are restricted to specific purposes under Title 1 and IDEA. Title 1 Program improvement funds must be spent on program improvements at the Middle school. IDEA funding is restricted to new special education initiatives and funding existing special education programs if specific criteria are met. The 2010-11 IDEA funding was appropriated for continuing the additional psychological services and classroom services.

For the third consecutive year state gaming funds will be available to provide tax relief for qualified homestead and farmstead properties. The district received \$787,855 which was passed on to provide approximately \$220 in tax relief to 3,529 property owners.

The expenditure budget increased \$1,821,582 to \$30,400,406 inclusive of an average 4.5% increase in professional employee salaries, 6% increase in health insurance, and 72% increase in retirement system funding. In preparation for a large capital project for deferred maintenance and improvements to District facilities the budget includes a transfer of \$1.9 million to a capital projects fund and an interest payment on a proposed \$6 million bond issue of \$263,000. A consultant was engaged and completed a report that examined building use, projected capital repair costs, and estimated the remaining useful life on building systems to provide a basis for multi year financial planning. Based on that report the administration and school board is developing the scope of capital projects to be funded through the 2011 bond issue.

Looking Forward

Financial planning for 2011-12 and beyond will become more challenging. The combined effects of economic conditions resulting in flat or declining tax revenues, historically low short term interest rates, and uncertain state funding, and the discontinuation of federal stimulus funding along with projected increases in contracted salaries 4.5%, health benefits 9-13%, retirement system funding 8% and electric rates 30% may require a significant increase in real estate tax rates. The difficulty is that our current Act 1 tax increase limit of 1.8% (down from a high of 5.9%) will likely continue to decline to below 1% resulting in a need to apply for index exceptions or go to a public tax referendum.

**Brandywine Heights Area School District
 Reconciliation of the Governmental Funds Balance Sheet
 to the Statement of Net Assets
 As of June 30, 2010**

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS **\$ 5,205,282**

**Amounts reported for governmental activities in the statement
of net assets are different because:**

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$52,532,534 and the accumulated depreciation is \$12,977,479. 39,555,055

Additional receivables established that do not meet the availability criteria reflected in the fund financial statements. This amount represents the difference between the prior year receivables and the current year receivables established under the accrual basis of accounting. 5,602

Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds. 1,033,349

The governmental funds follow the purchase method of inventory; therefore no inventory is reflected on the balance sheet. However, the statement of net assets uses the consumption method of inventory. 21,382

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

Bonds and Notes payable	\$ (28,800,533)	
Accrued interest on the bonds	(206,954)	
Compensated absences	(111,665)	
Net OPEB Obligation	(196,606)	
Other Post Retirement Benefits	(215,165)	(29,530,923)

The Accompanying Notes are an integral part of these financial statements.

**Brandywine Heights Area School District
Reconciliation of the Governmental Funds
Statement of Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities
For the Year Ended June 30, 2010**

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS \$ 679,175

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

	Depreciation expense	\$ 1,009,550	
	less - capital outlays	<u>190,282</u>	(819,268)

In the statement of activities, only the gain on the sale of the capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of fixed assets sold. (88,507)

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred revenues decreased by this amount this year. 106,969

Repayment of bond and lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. 2,135,000

In the statement of activities, certain operating expenses--compensated absences (vacations) and special termination benefits (early retirement)--are measured by the amounts earned during the year. In the governmental funds; however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used. (81,289)

SUB-TOTAL IN CHANGES BETWEEN BASIS OF ACCOUNTING **1,932,080**

**Brandywine Heights Area School District
 Reconciliation of the Governmental Funds
 Statement of Revenues, Expenditures, and Changes in Fund Balances
 to the Statement of Activities
 For the Year Ended June 30, 2010**

SUB-TOTAL IN CHANGES BETWEEN BASIS OF ACCOUNTING \$ 1,932,080
 (cont'd)

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. This would include accumulated interest accreted on capital appreciation bonds. The additional interest accrued in the statement of activities over the amount due is shown here. (96,878)

In the statement of activities, certain operating revenues are recognized when earned versus the revenues using the modified accrual basis of accounting in the fund statements that are recognized when the funds are available. As such, the amount shown here represents the difference between earned revenues and revenues that are earned, but not available. 5,602

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of assets. Refunding bond issues becomes a use of current financial resources in governmental funds, but refundings represent payments of long-term debt in the statement of net assets. This figure represents the difference between bond proceeds and refunding payments made to paying agents.

The governmental funds use the purchase method of inventory, where all items purchased are charged to expenditures. However, the statement of activities is reflected on the consumption method of recording inventory type items; therefore, this adjustment reflects the inventory difference. 802

CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES \$ 1,841,606

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

Note 1 - Description of the School District and Reporting Entity

School District

The Brandywine Heights Area School District is located in Tipton, Pennsylvania. The District tax base consists of the Borough of Tipton and the Townships of District, Longswamp, and Rockland.

The Brandywine Heights Area School District is a unit established, organized and empowered by the Commonwealth of Pennsylvania for the express purpose of carrying out, on the local level, the Commonwealth's obligation to public education, as established by the constitution of the Commonwealth and by the School Law Code of the same (Article II; Act 150, July 8, 1968).

As specified under the School Law Code of the Commonwealth of Pennsylvania, this and all other school districts of the state "shall be and hereby are vested as, bodies corporate, with all necessary powers to carry out the provisions of this act." (Article II, Section 211).

Board of School Directors

The public school system of the Commonwealth shall be administered by a board of school directors, to be elected or appointed, as hereinafter provided. At each election of school directors, each qualified voter shall be entitled to cast one vote for each school director to be elected.

The Brandywine Heights Area School District is governed by a board of nine School Directors who are residents of the School District and who are elected every two years, on a staggered basis, for a four-year term.

The Board of School Directors has the power and duty to establish, equip, furnish, and maintain a sufficient number of elementary, secondary, and other schools necessary to educate every person, residing in such district, between the ages of six and twenty-one years, who may attend.

In order to establish, enlarge, equip, furnish, operate, and maintain any schools herein provided, or to pay any school indebtedness which the school district is required to pay, or to pay any indebtedness that may at any time hereafter be created by the school district, the board of school directors are vested with all the necessary authority and power annually to levy and collect the necessary taxes required and granted by the legislature, in addition to the annual State appropriation, and are vested with all necessary power and authority to comply with and carry out any or all of the provisions of the Public School Code of 1949.

Administration

The Superintendent of Schools shall be the executive officer of the Board of School Directors and, in that capacity shall administer the School District in conformity with Board policies and the School Laws of Pennsylvania. The Superintendent shall be directly responsible to, and therefore appointed by, the Board of School Directors. The Superintendent shall be responsible for the overall administration, supervision, and operation of the School District.

The Director of Business and Fiscal Affairs, recommended by the Superintendent and appointed by the Board of School Directors, shall supervise and coordinate all business aspects of the School District. In this capacity, he or she shall be responsible to insure that all work accomplished by him/her, or by persons under his/her supervision, is in the best interests of the Brandywine Heights Area School District. The Director of Business and Fiscal Affairs is directly responsible to the Superintendent.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Brandywine Heights Area School District, this includes general operations, food service, and student related activities of the School District.

Brandywine Heights Area School District is a municipal Corporation governed by an elected nine-member board. As required by generally accepted accounting principles, these financial statements are to present Brandywine Heights Area School District (the primary government) and organizations for which the primary government is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are financially dependent on the School District in that the School District approved the budget, the issuance of debt, or the levying of taxes. The Brandywine Heights Area School District does not have any component units.

Joint Ventures

Berks Vocational-Technical School d/b/a Berks Career and Technology Center

The School District is a participating member of the Berks Career and Technology Center. The Berks Career and Technology Center is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the Berks Career and Technology Center's annual operating budget. Each participating district pays a pro-rata share of the District's operating costs based on the number of students attending the Center for each district. The District's share of the Center's operating costs for 2009-2010 was \$738,610. During the 1998-99 fiscal year, the by-laws of the Center were amended to state that any school district terminating their active participation in paying ongoing operating costs and debt, shall cease being a participating member district and shall have no further obligation to the Center.

On dissolution of the Berks Career and Technology Center, the net assets of the Center will be shared on a pro-rata basis of each participating district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the District does not have an equity interest in the Center as defined by GASB Statement No. 14 except a residual interest in the net assets upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the Center can be obtained from the District's administrative office at 1057 County Road, Leesport, PA 19533.

Jointly Governed Organizations

Berks County Intermediate Unit

The School District is a participating member of the Berks County Intermediate Unit (BCIU). The BCIU is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the BCIU's annual operating budget. The BCIU is a self-sustaining organization that provides services for fees to participating districts. As such, the District has no on-going financial interest or responsibility in the BCIU. The BCIU contracts with participating districts to supply special education services, computer services, and serves as a conduit for certain federal programs.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

Note 2 - Summary of significant accounting policies

The financial statements of the District have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. On June 15, 1987, the GASB issued a codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its business-type activities and to its proprietary funds, provided they do not conflict with or contradict GASB pronouncements. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets, a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for one business-type activity of the School District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

General Fund

The General Fund is the general operating fund of the School District. It is used to account for all financial resources, except those required to be accounted for in another fund.

Proprietary Funds Proprietary funds focus on the determination of changes in net assets, financial position and cash flows and are classified as enterprise funds.

Enterprise Funds Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The School District's major enterprise fund is:

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the School District.

Fiduciary Funds Fiduciary funds reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District's only trust fund is a private purpose trust. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

C. Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net assets.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all enterprise funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of revenues, expenses and changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its enterprise activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Government funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

Revenues - Exchange and Non-Exchange Transactions. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

E. Budgetary Process

An operating budget is adopted prior to the beginning of each year for the General Fund on the modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

In accordance with Act 1 of 2006, the Board shall annually, but not later than the first business meeting of January, decide the budget option to be used for the following fiscal year. The Board shall approve either the Accelerated Budget Process Option or the Board Resolution Option.

Accelerated Budget Process Option

Under this option, a preliminary budget must be prepared 150 days prior to the primary election. Under this Option, the preliminary budget must be available for public inspection at least 110 days prior to the primary election. The Board shall give public notice of its intent to adopt the preliminary budget at least 10 days prior to the adoption. The adoption must occur at least 90 days prior to the primary election.

If the preliminary budget exceeds the increase authorized by the Index, an application for an exception may be filed with either a Court of Common Pleas with jurisdiction or PDE and made available for public inspection. The Board may opt to forego applying for an exception by submitting a referendum question seeking voter approval for a tax increase, in accordance with Act 1.

The final budget shall include any necessary changes from the adopted preliminary budget. Any reduction required as the result of the failure of referendum shall be clearly stated. The final budget shall be made available for public inspection at least 20 days prior to final adoption. The Board shall annually adopt the final budget by a majority vote of all members of the Board prior to June 30.

Board Resolution Option

Under the Board Resolution Option, the Board shall adopt a resolution that it will not raise the rate of any tax for the following fiscal year by more than the Index. Such resolution shall be adopted no later than 110 days prior to the primary election. At least 30 days prior to adoption of the final budget the Board shall prepare a proposed budget. The proposed budget shall be available for public inspection at least 20 days prior to adoption of the budget. The Board shall give public notice of its intent to adopt at least 10 days prior to adoption of the proposed budget. The Board shall annually adopt the final budget by a majority vote of all members of the Board by June 30.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

Legal budgetary control is maintained at the sub-function/major object level. The PA School Code allows the School Board to make budgetary transfers between major function and major object codes only within the last nine months of the fiscal year, unless there is a two-thirds majority of the Board approving the transfer. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the PDE 2028 when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all 2009-10 budget transfers.

Encumbrances

Any encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities but represent budgetary accounting controls. The General Fund Budget is maintained on the modified accrual basis of accounting, except that budgetary basis expenditures include any encumbrances issued for goods or services not received at year-end and not terminated.

The actual results of operations are presented in accordance with GAAP and the District's accounting policies do not recognize encumbrances as expenditures until the period in which the goods or services are actually received and a liability is incurred. Any encumbrances are presented as a reservation for encumbrances on the balance sheet of the General Fund. If budgetary encumbrances exist at year-end, they are included in the fund financial statements to reflect actual revenues and expenditures on a budgetary basis consistent with the District's legally adopted budget.

F. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

G. Assets, Liabilities, and Net Assets

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Proprietary Fund type considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents.

Investments

In accordance with GASB Statement 31, investments are stated at fair value, except:

- a) Non-participating interest earning investment contracts are recorded at amortized cost;
- b) Money market investments and participating interest earning investment contracts that mature within one year of acquisition are recorded at amortized cost; and,
- c) Investments held in 2a7-like pools (Pennsylvania Local Government Investment Trust, Pennsylvania Treasurer's Invest Program, and Pennsylvania School District Liquid Asset Fund) are recorded at the pool's share price.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Property Tax Levy

Property taxes, which were levied during the fiscal year ended June 30, 2010, are recognized as revenue in the fund financial statements when received by the District during the fiscal year and also estimated to be received by the District within sixty (60) days after the fiscal year ended.

Property taxes that were levied during the current fiscal year, which are not estimated to be received within sixty (60) days after the fiscal year-end, are recorded as receivable and deferred revenue in the fund financial statements.

In the government-wide financial statements, all property taxes levied during the fiscal year are recognized as revenue, net of estimated uncollectible amount.

Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used. A physical inventory taken at June 30, 2010, shows \$21,382 as an asset in the governmental activities column of the government-wide statement of net assets; a physical inventory taken at June 30, 2010, shows \$45,032 as an asset in the business-type activities column of the government-wide statement of net assets.

Inventory type items in governmental funds utilize the purchase method, that is, they are charged to expenditures when purchased; therefore, there is no inventory shown on the governmental funds balance sheet.

Inventory type items in Proprietary Funds use the consumption method, in which items are purchased for inventory and charged to expenses when used. The only Proprietary Fund of the District is the Food Service Fund. Inventory within this fund consists of donated commodities, which are valued at U.S.D.A.'s approximate costs, and purchased food. Inventories on hand at June 30, 2010, consist of:

Purchased Food	\$ 8,004
Supplies	6,248
Donated Commodities	30,780
TOTAL	\$ 45,032

Prepaid Expenses

In both the government-wide and fund financial statements, prepaid expenses are recorded as assets in the specific governmental fund in which future benefits will be derived.

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010**

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets, but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of two thousand-five hundred (\$2,500) dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets utilized by the enterprise funds is also capitalized.

All reported capital assets except land, certain land improvements and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings and Improvements	20 -50 years	N/A
Furniture and Equipment	5 - 20 years	10 -15 years
Vehicles	Up to 10 years	N/A

Compensated Absences

The School District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits for administrators are accrued as a liability using the termination method. An accrual for accumulated sick days is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. In enterprise funds, the entire amount of compensated absences is reported as a fund liability.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net assets. Bond premiums and discounts, bond issuance costs, and deferred amounts on refundings are deferred and amortized over the life of the bonds using modification of the effective interest method. Bonds payable are reported net of the applicable bond premium or discount and any deferred amount on refundings. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts and premiums on debt issuances are reported as other financing uses or sources, respectively. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as support service expenditures.

Reclassification

Certain amounts have been reclassified to conform to the June 30, 2010, presentation of government-wide financial statements on the accrual basis of accounting versus the governmental fund financial statements reported on the modified accrual basis of accounting.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by a higher governmental authority or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Fund Balance Reserves

The School District reserves those portions of fund equity which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriations for expenditures. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of fixed assets, or from grants or outside contributions of resources restricted to capital acquisition and construction. The proprietary funds received no capital contributions during this fiscal year.

Note 3 - Reconciliation of government-wide and fund financial statements

- A.** *Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.*

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010**

The governmental fund balance sheet includes a reconciliation between "fund balance -total governmental funds" and "net assets - governmental activities" as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds".

The details of this \$29,530,923 difference are:

Bonds payable	\$ 29,475,000
Less: Deferred charge on refunding (to be amortized as interest expense)	(438,610)
Less: Deferred charge for issuance costs (to be amortized over life of debt)	(199,542)
Less: Issuance discount (to be amortized as interest expense)	(52,165)
Add: Issuance premium (to be amortized as a contra to interest expense)	15,850
Accrued interest payable	206,954
Other Post Retirement Benefits	215,165
Net OPEB Obligation	196,606
Compensated absences	111,665
Net adjustment to reduce "fund balance - total governmental funds" to arrive at "net assets - governmental activities"	\$ 29,530,923

B. Explanation of Differences between Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Activities

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. Differences between the governmental funds statement of revenues, expenditures and changes in fund balance and the statement of activities fall into one of three broad categories.

The amounts shown in the columns below represent:

- a) Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities. The long-term expenses reported below recognize the change in vested employee benefits.
- b) Capital related differences include (1) the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements, and capitalization and recording of depreciation expense on those items as recorded in the statement of activities.
- c) Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenue and both interest and principal payments are recorded as expenditures in the governmental fund statements. In the statement of activities, long-term debt proceeds are recorded as a liability; principal payments are recorded as a reduction of liabilities.

Note 4 - Stewardship, Compliance, and Accountability

A. Compliance with finance related legal and contractual provisions

The District has no material violations of finance related legal and contractual provisions.

B. Deficit fund balance or net assets of individual funds

No individual fund contains a deficit fund balance or net assets at June 30, 2010.

C. Excess of expenditures over appropriations in individual funds

No individual fund, which had a legally adopted budget, had an excess of expenditures over appropriations.

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010**

D. Budgetary compliance

The District's only legally adopted budget is for the General Fund. All budgetary transfers were made within the last nine months of the fiscal year. The District cancels all purchase orders open at year-end; therefore, it does not have any outstanding encumbrances at June 30, 2010. In addition, the District includes a portion of the prior year's fund balance represented by unappropriated liquid assets remaining in the fund as budgeted revenue in the succeeding year. The results of operations on a GAAP basis do not recognize the fund balance allocation as revenue as it represents prior period's excess of revenues over expenditures.

Note 5 - Detailed notes on all funds and account groups

Assets

Cash

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a policy for custodial credit risk. As of June 30, 2010, \$5,530,939 of the District's bank balance of \$5,878,582 was exposed to custodial credit risk as:

Uninsured and uncollateralized	\$	-
Collateralized with securities held by the pledging financial institution		-
Uninsured and collateral held by the pledging bank's trust department not in the District's name		5,530,939
TOTAL		<u>\$ 5,530,939</u>

Reconciliation to Financial Statements

Uncollateralized Amount Above	\$	5,530,939
Plus: Insured Amount		347,642
Less: Outstanding Checks		<u>(12,914)</u>
Carrying Amount - Bank balances		5,865,667
Plus: Petty Cash		1,192
Deposits in Investment Pool Considered Cash Equivalents		97,545
Less: Certificates of Deposit considered Investment by School Code		<u>-</u>
TOTAL CASH PER FINANCIAL STATEMENTS		<u>\$ 5,964,404</u>

Investments

Permitted investments for Pennsylvania School Districts are defined in the Public School Code of 1949 as:

1. United States Treasury Bills;
2. Short-term obligations of the United States Government or its agencies or instrumentalities;

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

3. Deposits in savings accounts or time deposits or share accounts of institutions insured by the F.D.I.C; and,
4. Obligations of the United States of America or any of its agencies or instrumentalities, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities or any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities.

As of June 30, 2010, the District had the following investments:

<i>Investment</i>	Maturities	Fair Value
Pa. School District Liquid Asset Fund	N/A	\$ 97,545
National Penn Bank - REPO		662,732
TOTAL		\$ 760,277

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District has no investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2010, the District's investment in the PA School District Liquid Asset Fund was rated AAA by Standard & Poor's.

Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer. The District did not have any investments subject to concentration of credit risk for the year ending June 30, 2010.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investments subject to custodial credit risk.

Reconciliation to Financial Statements

Total Investments Above	\$ 760,277
Less: Deposits in Investment Pool Considered Cash Equivalents	(97,545)
Total Investments Per Financial Statements	\$ 662,732

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010**

Property Taxes

Property taxes are levied on July 1, on the assessed value listed, as of that date, for all taxable real property located in the District. Assessed values are established by the County Board of Assessments. All taxable real property was assessed at \$584,708,600. In accordance with Act 1 of 2006, the District received \$788,610 in property tax reduction funds for the 2009-10 fiscal year. The tax rate for the year was \$2.97 per \$100 of assessed valuation or 29.70 mills.

The property tax calendar is:

- July 1 - Full year tax assessed for current year.
- July 1 - August 31 - Discount period during which a 2% discount is allowed.
- September 1 - October 31 - Face amount of tax is due
- November 1 - January 15 - A 10% penalty is added to all payments.
- January 15 - All unpaid taxes become delinquent and are turned over to the County Tax Claim Bureau for Collection.

The School District, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes as determined by the administration. A portion of the net amount estimated to be collectible, which was measurable and available within 60 days, was recognized as revenue and the balance deferred in the fund financial statements.

Receivables

Receivables, as of year end, for the government's individual major funds and non-major and fiduciary funds, in the aggregate, including the applicable allowances for uncollectible accounts, are:

	GENERAL FUND	FOOD SERVICE FUND	NON- MAJOR FUNDS	FIDUCIARY FUNDS	TOTAL
RECEIVABLES:					
Interest	\$ -	\$ -	\$ -	\$ -	\$ -
Taxes	826,614	-	-	-	826,614
Accounts	28,954	792	-	-	29,746
Intergovernmental	<u>737,749</u>	<u>26,152</u>	-	-	<u>763,901</u>
GROSS RECEIVABLES	1,593,317	26,944	-	-	1,620,261
Less: Allowance for Uncollectibles	-	-	-	-	-
NET RECEIVABLES	<u>\$ 1,593,317</u>	<u>\$ 26,944</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,620,261</u>

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were:

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010**

Schedule on Deferred Revenue - Unavailable and Unearned

	<u>UNAVAILABLE</u>	<u>UNEARNED</u>

General Obligation Notes - Series of 2002

On July 1, 2002, the District issued \$21,150,000 of General Obligation Notes - Series of 2002. The purposes of this issue are to provide funds for: (i) the costs of the planning, acquiring, furnishing, and equipping of alterations, additions, renovations, and improvements to various public school facilities including, but not limited to the construction of the new Brandywine Heights Area High School and the renovation of the former High School facility; (ii) payment of interest during construction; (iii) current refunding of the General Obligation Note - Series A of 2000, and (iv) payment of the costs to issue the Participant Note. In accordance with the Local Governmental Unit Debt Act, a sinking fund has been established with the paying agent. The notes mature from January 25, 2004, to January 25, 2019. Interest is a variable weekly rate not to exceed 15% per annum determined by the Municipal Swap Index for each week as provided by the Municipal Swap Index Calculation agent. The outstanding debt service requirements using the interest rate of 0.99% at June 30, 2010, are:

FISCAL YEAR	PRINCIPAL	INTEREST
2010-11	\$ 1,410,000	\$ 159,908
2011-12	1,485,000	146,008
2012-13	1,560,000	130,613
2013-14	1,630,000	114,873

Sub-Total	\$ 16,755,000	\$ 793,763
Unamortized Deferred Amt.	(23,160)	
TOTAL OUTSTANDING	\$ 16,731,840	

Contractual Obligation

As a result of the District's decision to enter into a fixed rate obligation, the Delaware Valley Authority entered into an interest rate swap arrangement with a counterparty to provide the District with a synthetic fixed rate of interest. Since the swap agreement is not in the name of the District, they entered into a contractual arrangement with the Authority, to pay or receive, to or from the Authority upon termination of this agreement, the fair value of the Authority's derivative instrument with their counterparty. At June 30, 2010, the derivative instrument had a positive fair value of \$802,751, which represents a contingent asset that should not be recorded on the financial statements in accordance with generally accepted accounting principles.

General Obligation Bonds - Series of 2002

On December 4, 2002, the District issued \$5,355,000 of General Obligation Bonds - Series of 2002. The purpose of this issue is to provide funds for: (a) the advance refunding of the General Obligation Bonds - Series of 1998, and (b) paying the costs of issuing and insuring the bonds. In accordance with the Local Governmental Unit Debt Act, a sinking fund has been established with the paying agent. The bonds mature from February 15, 2003, to February 15, 2014. Interest rates range from 1.60% to 4.50%.

General Obligation Notes - Series of 2003

On May 1, 2003, the District issued \$11,345,000 of General Obligation Notes - Series of 2003. The purposes of this issue are to provide funds for: (a) the current refunding of the General Obligation Notes - Series B of 2000; (b) provide funds to complete the High School project; (c) provide funds for various capital projects of the School District; and, (d) pay related costs of issuing and insuring the notes. In accordance with the Local Governmental Unit Debt Act, a sinking fund has been established with the paying agent. The note matures from February 1, 2005, to February 1, 2021. Interest rates range from 1.50% to 5.00%.

On October 25, 2006, the District advance refunded a portion of the Series of 2003 General Obligation Notes (\$9,225,000) with interest rates ranging from 2.3% to 5.00% with new debt in the amount of \$9,995,000, interest rates ranging from 3.45% to 4.05%. The new debt is dated October 15, 2006.

The remaining debt service requirements at June 30, 2010, are:

FISCAL YEAR	PRINCIPAL	INTEREST

Lease Rental Debt

On November 15, 1998, the Berks County Vocational Technical School Authority issued \$34,850,000 in revenue bonds, Series of 1998. The Bonds are being issued under the Municipality Authorities Act of 1945, as amended, and pursuant to the provisions of a Trust Indenture, dated as of November 15, 1998, between the Authority and Bank of Pennsylvania, a division of Dauphin Deposit Bank and Trust Company, as trustee. Under the Indenture, the Authority has pledged and assigned to the Trustee the sublease rentals to be paid pursuant to a Lease and Sublease, dated as of November 15, 1998, between the Authority, as lessee and sublessor, and Berks Vocational Technical School, a/k/a Berks Career and Technology Center (BCTC), as lessor and sublessee.

The governing body of the Authority is its Board consisting of seventeen (17) members appointed to staggered terms of five years by the Antietam School District, with the advice of the joint operating committee of BCTC.

BCTC was created and operates under Articles of Agreement by and among sixteen participating school districts located in Berks County and portions of Montgomery and Chester Counties, Pennsylvania.

Under the Articles of Agreement, dated June 1, 1965, between BCTC and the participating school districts, the annual operating expenses of BCTC are allocated to and paid by the participating school districts in proportion to the three-year average daily number of students enrolled by each in BCTC computed at the end of each school year. Lease rental payments (including payments under the Sublease) or capital outlays are shared in proportion to each participating school district's market valuation of taxable real estate to the total valuation of all participating school districts. As a result of this debt, the participating school districts amended Section 11 of the BCTC's By-Laws to read: The obligations of each of the participating school districts to pay its proportionate share of the rentals shall be subject to an annual appropriation by each school district. Any school district that does not budget, appropriate and pay its proportionate share of the rentals payable hereunder shall lose all of its rights as a participating school district, including the right to send students to the Center. It is the intent of Brandywine Heights Area School District to continue to participate.

The proceeds to be realized by the Authority will be used to finance certain capital projects of BCTC, including renovations, alterations, and additions to the East Campus and West Campus of the Berks Career and Technology Center, to pay capitalized interest on the Bonds, to fund a debt service reserve fund and to pay the costs of issuance of the Bonds.

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010**

The lease rental debt owed by BCTC to the Authority is equal to the bond principal and interest of the Authority's revenue bonds. This debt is not considered general obligation debt of the School District. The bonds mature from June 1, 2005, to June 1, 2019, at interest rates between 3.6% and 5.0%.

Since market values fluctuate year to year, the District's future share of the lease rental debt, as shown below, is an estimate using current market values:

FISCAL YEAR	PRINCIPAL
2010-11	\$ 107,006
2011-12	107,299
2012-13	107,363
2013-14	107,383
2014-15	107,344
2015-19	429,470
TOTAL OUTSTANDING	\$ 965,865

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

Compensated Absences

Sick-Pay

Under the District's administrative regulations, professional employees, cafeteria workers, custodians, aides and secretaries accumulate unused sick days from year to year. These accumulated sick days are cumulative with no limitation. Upon retirement, employees are not eligible for remuneration for unused sick days, except for administrators covered under the Administrator Evaluation Plan, Non-Union support staff and the superintendent. Administrators shall receive severance pay of \$75 for each unused sick day accumulated up to 130 days. Non-union support staff receive \$20 per day up to \$4,500. To be eligible for severance pay a minimum of 120 days notice must be given prior to leaving.

The District maintains records on the eligible accumulated unused sick days. In accordance with GASB Statement No. 16, the District has recorded a long-term liability within the governmental activities column of the government-wide statement of net assets of \$44,998, which includes the employer's share of FICA tax (net of reimbursement). Based on an historical analysis, management has determined that this liability will not use currently available financial resources; therefore, no liability for the compensated absence is recorded in the General Fund.

Vacation Leave

Unused vacation leave is paid upon an employee's termination. The District maintains records of each employee's accumulated vacation days. In accordance with GASB Statement No 16, the amount recorded for vacation leave earned as of June 30, 2010, in the General Fund that will use currently available financial resources is \$47,296, which includes the employer's share of FICA tax and retirement contributions (net of reimbursement). This amount is shown as current portion of long-term debt in the governmental activities column of the government-wide statement of net assets. The remaining balance of vacation leave, earned at June 30, 2010, of \$66,667, which includes the employer's share of FICA tax and retirement contributions (net of reimbursement), is recorded as a long-term liability in the governmental activities column of the government-wide statement of net assets.

Defined benefit pension plans

Plan Description

Name of plan: The Public School Employees' Retirement System (the System).

Type of Plan: Governmental cost sharing multiple-employer defined benefit plan.

Benefits: Retirement and disability legislatively mandated ad hoc cost-of-living adjustments, healthcare insurance premium assistance to qualifying annuitants.

Authority: The Public School Employees' Retirement Code (Act No. 96 of October 2, 1975, as amended) (24 PA C.S. 8101-8535).

Annual Financial Report: The System issues a comprehensive annual financial report that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Diane J. Wert, Office of Financial Management, Public School Employees' Retirement System, P. O. Box 125, Harrisburg, PA 17108-0125. The report is also available in the publications section of the PSERS website at www.psers.state.pa.us.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

Funding Policy

Authority: The contribution policy is established in the Public School Employees' Retirement Code and requires contributions by active members, employers, and the Commonwealth.

Contribution Rates

Member Contributions: Active members, who joined the System prior to July 22, 1983, contributed at 5.25 percent (Membership Class TC) or at 6.50 percent (Membership Class TD) of the member's qualifying compensation. Members who joined the System on or after July 22, 1983 and who were active or inactive as of July 1, 2001, contribute at 6.25 percent (Membership Class TC) or at 7.50 percent (Membership Class TD) of the member's qualifying compensation. Members who joined the System after June 30, 2001, contribute at 7.50 percent (automatic Membership Class TD). For all new hires and for members who elected Class TD membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Contributions required of employers are based upon an actuarial valuation. For fiscal year ended June 30, 2009, the rate of employer contribution was 4.78 percent of covered payroll. The 4.78 percent rate is comprised of a contribution rate of 4.00 percent for pension benefits and 0.78 percent for healthcare insurance premium assistance.

The employer's current year covered payroll was \$12,905,105 and total payroll was \$13,481,236.

The total employee and employer contributions for this current year were \$960,550 and \$628,014 respectively.

Other Post Retirement Benefits

Retirement Termination Benefit

All professional employees of the District are entitled at retirement with a minimum of ten years service with the District, to receive \$140 per year up to a maximum of \$6,000. Employees must submit their intention to retire prior to March 1, however, if notice is received after March 1, employees are only entitled to \$80 per year, up to a maximum of \$2,500.

In accordance with GASB Statement No. 16, an employer that provides severance benefits shall recognize a liability when that benefit has been earned. The portion of the liability that will use currently available financial resources of \$23,499, including the employer's share of FICA tax (net of reimbursement), is recorded in the General Fund and as a current portion of long-term debt in governmental activities column of the government-wide statement of net assets. The remaining estimate of severance benefits in the amount of \$215,165, including the employer's share of FICA tax (net of reimbursement), is recorded as a long-term liability in the governmental activities column of the government-wide statement of net assets.

Other Post Employment Benefits

Plan Description. Brandywine Heights Area School District has one single-employer defined benefit plan.

1. In accordance with the PA School Code of 1949, as amended, medical coverage is provided to eligible retirees and spouses with the retiree paying the full active premium rate for coverage until age 65. This benefit has an implicit rate subsidy based upon GASB Statement No. 45, since the retiree pays the premium at the insurance carrier's global rate charged to the School District versus age-adjusted rate, as defined in the GASB Statement.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

Funding Policy and Annual OPEB Cost. This benefit is state mandated via the School Code statute. The District's annual other post-employment (OPEB) cost (expense) for the plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost, each year, and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The District's annual OPEB cost for the current year and the related information as follows:

Contribution Rates:	
	OPEB Benefit Actuarially Determined
Interest Rate	4.5%
Plan Members	254
Annual Required Contribution	\$ 200,633

Contributions made	<u>(102,742)</u>	<u>(1,042)</u>	<u>(103,784)</u>
Increase in Net OPEB Obligation	92,882	2,212	95,094
Net OPEB Obligation - beginning of year	<u>103,724</u>	<u>3,308</u>	<u>107,032</u>
Net OPEB Obligation - end of year	<u>\$ 196,606</u>	<u>\$ 5,520</u>	<u>\$ 202,126</u>

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010**

Since this is the second year of the implementation for GASB Statement 45, prior year data has been omitted for the one preceding year. The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation of the fiscal year ending 6/30/10 for the benefits were as follows:

<u>Year ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
6/30/2010	\$ 198,878	52.2%	\$ 202,126
6/30/2009	200,633	46.7%	107,032
6/30/2008	-	0.0%	-

Funding Status and Funding Process. The funded status of the benefits as of June 30, 2010, was as follows:

	<u>State-mandated Healthcare Benefit Governmental Activity</u>	<u>State-mandated Healthcare Benefit Business-Type Activity</u>
Actuarial accrued liability (a)	\$ 1,625,990	\$ 30,947
Actuarial value of plan assets (b)	-	-
Unfunded actuarial accrued liability (a) - (b)	\$ 1,625,990	\$ 30,947
Funded Ratio (b) / (a)	0.0%	0.0%
Covered payroll	\$ 11,159,596	\$ 151,083
Unfunded actuarial accrued liability (funding excess) as a percentage of covered payroll.	14.6%	20.5%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the benefits and the annual required contributions of the employer are subject to continual revision actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of plan net assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the district and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010**

	State-mandated Healthcare Benefit
Actuarial Valuation Date	1/1/2008
Actuarial Cost Method	Entry Age Normal
Amortization Method	Level dollar method over a 30 year period
Remaining amortization period	28 years
Asset Valuation Method	pay as you go basis
Actuarial Assumptions:	
Investment rate of return	4.5%
Projected salary increases	4.25% to 7.25%
Healthcare inflation rate	
2008	8.5%
2009	8.0%
2010	7.5%
2011	7.0%
2012	6.5%
2013	6.0%
2014	5.5%
2015	5.0%
2016 +	5.0%

Note 6 - Risk Management

The District is subject to risk of loss from employee acts, property damage, personal injury auto accidents, theft, etc. The District covers those risks through the purchase of commercial insurance. The Brandywine Heights Area School District is a participating member of a Workers' Compensation Consortium. The Consortium is comprised of 81 member School Districts which jointly self-assume their workers' compensation liabilities. Each District is required to make contributions to the Consortium based on formulae set forth in the contract. Each member school district individually retains sole liability up to a retention level, which is fixed annually by multiplying its Experience Modification Factor times the last audited fiscal year payroll of the member. The result is then multiplied by a contribution rate, which is the same for all members. Even though the member school districts contribute to a central fund, they remain individually liable for any workers' compensation claims.

Above the level of retention, the Consortium pays claims up to the level of coverage of \$100,000 for the year ended June 30, 2010, provided by an excess insurance policy. Claims above the maximum coverage of excess insurance are paid by the members of the Consortium through additional assessments against members.

The members of the Consortium are required to participate in deficiencies and are subject to periodic assessments by the Executive Committee, as required.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2010

At June 30, 2010, the most recent available financial statements, the consortium did not have a deficit, in which the ultimate responsibility to pay for a deficit belongs to the member districts.

Note 7 - Fund Balance Reserves/Designations

Designated Fund Balance

Management has designated \$100,000 for technology and \$500,000 for future capital projects, \$435,000 for future retirement rate increases, and \$1,960,603 for 2010-11 appropriations in fund balance at June 30, 2010.

Note 8 - Restricted Net Assets

Invested in Capital Assets, Net of Related Debt

The components of this restriction are total capital assets of \$39,661,502, with related debt of \$28,800,533, which includes unamortized bonds discounts, premiums, issuance costs and deferred refunding charges. The business-type activities column reflects \$83,195 invested in capital assets with no related debt.

Other Restrictions

At year end, the District has \$413,156 restricted in governmental activities for federal grants.

Note 9 - Contingencies

Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and a condition specified in the grant agreements, and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund, or other applicable funds. However, in the opinion of management any such disallowed claims will not have a material adverse effect on the overall financial position of the School District as of June 30, 2010.

Litigation

The School District is currently a party to legal proceedings; however, management believes the outcome of these issues will not materially affect the financial position of the school district.

Brandywine Heights Area School District
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2010

Note 1 - Significant Accounting Policies

The accompanying Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting for all federal awards charged to governmental funds and on the accrual basis of accounting for all federal awards charged to proprietary funds, as contemplated by accounting principles, generally accepted in the United States of America.

Note 2 - Organization and Scope

The District recognized 5.8% of its total general fund revenue in federal awards, and 28.5% of its total enterprise fund revenue.

Note 3 - Program Disclosure – Footnotes

1. The federal awards passed through the Berks and County Intermediate Unit under the U.S. Department of Education heading, is part of a consortium of participating school districts and the federal awards passed through Penn State University, under the U.S. Department of Labor Employment Training Administration. In accordance with directions from the Commonwealth of Pennsylvania, these awards are reported on the basic financial statements as local source revenue.
2. The Title I grants using CFDA No.84.010, under the U.S. Department of Education heading, are part of a cluster program, in accordance with OMB Circular A-133 compliance Supplement, with ARRA – Title I grants using CFDA No. 84.389, under the U.S. Department of Education heading. In addition, the IDEA grants using CFDA No. 84.027, under the U.S. Department of Education heading, are part of a cluster program, in accordance with OMB Circular A-133 Compliance Supplement, with ARRA – IDEA grants using CFDA No. 84.391, under the U.S. Department of Education heading.
3. The District received non-monetary assistance from the U.S. Department of Agriculture of \$62,018 in the form of commodities. These commodities are valued at U.S.D.A.'s approximate costs. During the 2009-10 fiscal year, the District used \$59,389 in commodities and established a year-end inventory of \$30,780 at June 30, 2010.
4. The amount recognized as revenue in the Schedule of Expenditures of Federal Awards, under the U.S. Department of Agriculture heading, represents the commodities used, versus the commodities received, which are recognized as revenue in the financial statements.
5. The National School Lunch, National School Breakfast, and Donated Commodities programs, under the U.S. Department of Agriculture heading, are considered a cluster program in accordance with OMB Circular A-133 Compliance Supplement.
6. The programs reporting this footnote are grants received using funds from the American Recovery and Reinvestment Act.

FINANCIAL STATEMENT RECONCILIATION		
General Fund Federal Source Revenues	\$	985,001
Federal Grants in Local Sources		655,999

**INDEPENDENT AUDITOR'S REPORT
ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison statement for the General Fund of Brandywine Heights Area School District as of and for the year ended June 30, 2010, which collectively comprise Brandywine Heights Area School District's basic financial statements and have issued our report thereon dated December 17, 2010. We conducted our audit in accordance with auditing standards, generally accepted in the United States of America, and the standards applicable to financial audits in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered Brandywine Heights Area School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Brandywine Heights Area School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Brandywine Heights Area School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Brandywine Heights Area School District's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Brandywine Heights Area School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Brandywine Heights Area School District in a separate letter dated December 17, 2010.

This report is intended solely for the information and use of management, the Board of School Directors, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

Respectfully submitted,

Garman & Associates, P.C.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT
COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Compliance

We have audited Brandywine Heights Area School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A -133 *Compliance Supplement* that could have a direct and material effect on Brandywine Heights Area School District's major federal programs for the year ended June 30, 2010. Brandywine Heights Area School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Brandywine Heights Area School District's management. Our responsibility is to express an opinion on Brandywine Heights Area School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133. Those standards and OMB Circular A -133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements, referred to above, that could have a direct and material effect on a major federal program, occurred. An audit includes examining, on a test basis, evidence about Brandywine Heights Area School District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Brandywine Heights Area School District's compliance with those requirements.

In our opinion, Brandywine Heights Area School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control over Compliance

Management of Brandywine Heights Area School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Brandywine Heights Area School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Brandywine Heights Area School District's internal control over compliance.

Brandywine Heights Area School District

A *deficiency* in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of School Directors, others within the entity, federal awarding agencies, and pass-through entities, and is not intended to be, and should not be used by anyone other than these specified parties.
