110. INSTRUCTIONAL SUPPLIES

Authority

It shall be the policy of the Board to supply each teaching staff member and student with the supplies and equipment that are deemed necessary for implementation of the approved instructional program.[1]

The Board may require that students provide certain supplies for participation in extracurricular activities.

Guidelines

When individualized and nonreusable clothing or equipment is necessary for reasons of safety or health, students shall be required to provide their own clothing or equipment, which shall meet standards set by the school. Such standards shall be those reasonably related to considerations of safety, health and protection of property.[2]

When students prepare useful items they are permitted to keep, the district may charge students the cost of the materials used.

When policy guidelines impose a financial hardship on a student, the school district will assume the cost. The Superintendent or designee shall implement procedures to assure that no student is denied participation in the school program for financial reasons and to guard the privacy of each student.

Major Instructional Equipment Purchases

All recommendations for special consideration such as instrument purchases or major instructional equipment purchases will be made by the Superintendent after consultation with the appropriate administrator and/or professional staff member. Financing may be separate from individual budgets as a special budget request.
