

Hello Brandywine Heights Community Members,

Recently the Brandywine Heights Area School District conducted a facility overview analysis to evaluate current building structures and future needs. In an effort to keep community members informed about our community building assets, presentations are being planned to share the outcome of the facility overview analysis as well as a financial overview.

After the presentations, a survey will be opened to seek your input into the future of the school district. The link/QR code below will allow you to gain access to the survey which will be opened from February 15-March 1. The information will be shared with the School Board of Directors to help make informed decisions regarding our facilities.

Sincerely,

Brandywine Heights Administration
